

Poster Session

We are accepting abstracts for posters, where graduate students or postdoctoral fellows from across Arizona are eligible to receive poster awards. Areas of interest include, but are not limited to:

- Developmental biology
- Bioimaging technologies applications in regenerative medicine
- Stem cell-based disease modeling
- Genome editing technologies and applications
- Biomaterials and tissue engineering
- Translational stem cell research
- Regenerative medicine ethics, policy, and regulation

The poster session will be held during Statewide Symposium in Regenerative Medicine Friday May 17 to Saturday May 18, 2019. Posters will be eligible for participation in a poster competition.

All abstracts are limited to one page and must include the title, authors (presenting author underlined), affiliation, and affiliation location (city, state, and zip code). **Use the link on the homepage to submit your abstract online.**

Abstracts are due by Friday, April 26, 2019. Email AzRegenMed@asu.edu with any questions regarding abstract submission.
